

## WELSAFE FLEX

Space-saving farrowing pen

- WELSAFE FLEX is our unique farrowing pen for loose sows
- Can be built into existing stalls
- Inspection access between the farrowing crate and the piglet nest - not necessary for employees to come in to the sow
- Good space for milking system for piglets
- Swivelling sides allow short-term restraining, that reduces piglets' mortality
- The sides can also be used as flexible protection during inspection of the sow
- Height-adjustable barrier plate in the piglet nest

# | WELSAFE FLEX |

Space-saving farrowing pen, that can be built into existing stalls

WELSAFE FLEX is a farrowing pen for loose nursing sows, where the sow can be fixated during the farrowing. The farrowing pen's unique features help to reduce piglets mortality and to increase weight on weaning compared to the traditional farrowing pens. The farrowing pen is very space-saving and can be built into new as well as into existing stalls.

## THERE ARE TWO OPTIONS WITH WELSAFE FLEX FARROWING PEN:

### 1. FARROWING PEN WITH HIGH POSTS -

Recommended for pens 240-245 cm C/C.

### 2. FARROWING PEN WITH FRONT PART & LOW POST -

Recommended for pens 245 cm C/C.

### CORNER TROUGH FOR SOWS

The trough is designed so that it fits to U-profiles in the corner, thus closing tight to the wall / pen equipment in front of the trough. Choose between PVC or stainless steel. Corner trough capacity is 19,5 l.

**PIN LOCK**  
recommended for  
both solutions.

**2910570** Stainless steel corner trough

**2960565** Plastic corner trough
